

FOR IMMEDIATE RELEASE

RCRC Independent Review Board Announces Launch of GlobeSync™ Virtual Workspace

WEB-based study document delivery and repository system allows real-time access to IRB study documents for RCRC clients.

Austin, Texas USA – February 12, 2009- RCRC Independent Review Board, providing ethical review services for greater than 20 years, announced today that it has implemented GlobeSync™ Virtual Workspace, a WEB-based IRB document delivery and repository for clinical trials. GlobeSync allows sponsors, study managers, study monitors, and investigators secure, real-time access to IRB study documents enabling more efficient document delivery.

“The launch of GlobeSync™ enables RCRC to provide secure, real-time study document delivery eliminating common delays and assisting our clients in meeting their goal to bring their products to market faster.” said Priscilla Short, RCRC Executive Director. “GlobeSync’s repository system provides an easy to use, personalized interface giving investigators access to their study documents while allowing sponsors and study managers to oversee and manage IRB documents study-wide.”

About RCRC Independent Review Board

RCRC is a leading provider of professional IRB services, providing IRB review for clients nationwide. RCRC provides ethical review of all phases of research in a variety of therapeutic areas and has extensive experience in multi-site trials and mega trials.
